

Forest Loss Assessment & Reforestation Plan

Contents

- Introduction & Objectives
- General Description of Project Area
- Forest Impact Assessment
 - Discussion of Wildfire or Forest Mortality
 - Site Vegetation (Pre & Post Fire Conditions)
 - Timber Site Classification
 - Timber Soil Classification
 - Hillside Slope Model
 - Forest Loss Summary
- Post-Fire Forest Management Projects
 - Recent Timber Harvest & Fuel Reduction Projects Completed
 - Ongoing Timber Harvest & Fuel Reduction Projects
 - Recent Reforestation
 - Ongoing Reforestation
- Forest Regeneration Plan
 - Prioritized Planting Site's (Discussion of Planting Site Matrix)
 - Artificial and natural regeneration assessment
 - Site preparation prior to planting
 - Species Selection and timing
 - Herbicide Application Selection and Timing
 - Fire Resistant Horticulture
 - Noxious Weed abatement
 - Current and Future Tree Maintenance
